TIPS ON EFFECTIVE NETWORKING ~ Make the most out of your time invested in Networking ~ here are some ideas to consider:~

Work to Remember Names: We hear this so often, "I am so bad at remembering names!" But remembering names is the key to creating a strong network. After all, it's hard to call on "What's his name" or to engage with "Hey, YOU," for an entire conversation.

A quick tip to remembering names is to make sure you hear it and know it right away by adding it to the conversation, "Nice to meet you, Jim," or "Tell me about what you do for XYZ bank, Jim." And if you didn't catch it the first time, ask again. "Please, tell me your name again," and this time stop, look at the person in front of you, and truly listen! Now.....

Speaking of Networking.....
